POLICY:

It is the policy of OSF HealthPlans to assign a risk category to members based on their risk score based on the Healthy Living Survey.

PROCEDURE:

1. Each Healthy Living Survey is scored using the methodology developed by the University of Minnesota.
2. Members are designated “High Risk” if their risk score is .40 or above.
3. Members are designated “Moderate Risk” if their risk score is between .25 and .399.
4. Members are designated “Low Risk” if their risk score is below .25.
